Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

### INSTALLATION:

1. Remove the stock air filter.
2. Install the K&N® air filter into the stock air box base making sure it is completely seated. (Fig. 1)  
**NOTE: The air filter will only fit into the air box one way. Do not remove the air filter o-ring in the air box.**

3. Reinstall the air box lid.
4. Reinstall the stock screws into the air box lid and tighten.

**NOTE: Make sure the center screw is installed as this screw holds the air filter in place. Lid appearance may vary depending on application (Fig. 2)**

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
